

FAQ – YOGA TEACHER TRAINING

*** How much experience do I need to join the Yoga Teacher Training?**

Our Yoga Teacher Training is suitable for yoga practitioners from all levels of practice; beginners, intermediate and advanced. The course is structured in such a way that each person starts at the same point and works their way systematically and consistently to the end. We encourage students from all backgrounds with different levels of experience to join the course, even if you don't want to teach others. Our training is for all students which want to learn and deepen their knowledge.

We believe that a seasoned practitioner can learn plenty from a less experienced practitioner and vice versa. Having students with different levels of experience on the course ensures that the classroom environment is reflective of the type of students that will make up your class when you go on to teach.

The most important point is that you are in a healthy mental condition and disciplined.

*** What style of yoga will I learn?**

We follow the classic Indian traditions of Hatha and Vinyasa Yoga which include; Sivananda and Satyananda Yoga, Yin and Iyengar Yoga, and Vinyasa Flow Yoga.

Yoga is a vast subject area with many traditions and styles, our course includes the study of; Ashtanga, Raja, Bhakti, Jnana, Kriya and Karma Yoga. Our course is based on a systematic and progressive learning approach designed to get trainees teaching safely and effectively.

If you are interested in a fitness-oriented training, please think twice before you sign in for our Yoga Teacher Training. We teach a traditional Indian Yoga, which includes Asana, Mantras, Meditation, Pranayama and other spiritual practices. These techniques are used to balance body and mind, and are essential.

There are many different yoga styles, and it is important that you understand this point. *** Will I have the opportunity to actually teach on the course?**

Yes, you will. Under the supervision of our teachers, you will learn from the really beginning, how to structure and guide beginner hatha yoga, and intermediate vinyasa yoga classes. We will increase in teaching skills little by little, this way you will gain knowledge and most important, self-confidence while teaching others.

*** Will I be qualified to teach when I graduate and at what level?**

Many students join the course with this objective in mind and they invariably get as much out of the course as those who have enrolled with the main objective of becoming yoga teachers. However, as it is a teacher training course, the curriculum is geared towards teaching and all trainees are expected to achieve learning outcomes regardless of personal goals.

Anyway, we accept all students, also if they are beginners and don't want to teach yoga. We strongly believe that Yoga is a personal practice, and our training is for all those who want to deepen the yogic knowledge.
